A youth organisation in Normandy (France) is looking for partners in Europe to be involve in a youth exchange (Erasmus + program) during next summer time.

You will find more information in the following message:

The Social Center "Croix Mercier" and the association "d'Ecouves Verte" (FRANCE) organized a youth exchange in France during the summer 2014.

During the summer 2015, we planned to visit a partner met in 2014. Unfortunately, for various reasons, the partnership may not achieve.

Now, we are looking for a new partner who wants to host a group of French teenagers. This is a group of young people, between 15 and 17 years old, they have already lived experiences of intercultural exchanges.

For more information, thank you to contact Charles GRZYBOWSKI, association d'Ecouves Verte charles.grzybowski@laposte.net

Agrarian School of Elvas - Instituto Politécnico de Portalegre (PORTALE01), PORTUGAL, would like to be involved on an Erasmus+ KA2 strategic partnerships project (next applications until the end of march). Due to our small size we are not in conditions to be a coordinator partner but would like to know if there is any future projects out there that are looking for partners (keep in mind we are linked to agronomy/ agronomy-landscape, veterinary nursing and equine studies, or general topics). <europedirect@esaelvas.pt>
