An art high school ("Liceo artistico RUSSOLI") in Pisa (Italy) is looking for 1 foreign partner for a project concerning the school and the possibility of a foreign training period for students.

The invitation is mainly directed at art schools and language academies.

The project team of Arts High School “Franco Russoli” of Pisa and Cascina (Tuscany) is carrying out the project “Be Europe” in response to the public notice No 3504... <http://www.istruzione.it/.../c7ae1e0e-a97a-43.../prot3504_17.zip> of the National Operational Programme.

The educational path we are planning covers a period of two years and is divided in two phases. The first one is intended to promote our students' awareness and competence on European Citizenship and their preparation for the achievement of Trinity GESE qualifications at B1 level, which is an essential requirement relevant to gain access to a training programme abroad.

The second phase refers to students' mobility experiences. It consists of the abovementioned training programme, lasting 60 hours (3 weeks), in an English-speaking country during the year 2018-19. This experience abroad implies the improvement of the students' language skills and would lead the participants to the exams and achievement of Trinity GESE qualifications at B2 level, once back in Italy.

The possible options for this training programme abroad we are considering are the following: a partnership with high schools similar to ours with regard to the field of study (Arts School) willing to offer internships or schools/language academies for English courses.

Since the deadline for the submission of the draft is short, we are not required to establish and provide immediately the exact destination but we need first of all to request the willingness to collaborate with us to an Europe Direct Centre in Great Britain or Ireland or Malta, in order to be able to provide in the draft the name of the foreign country in which our training programme will be developed.

Here you can find the call on the website of the Italian Ministry of Education (PON, Structural Funds):  http://www.istruzione.it/p.../avviso_cittadinanza-europea.html
