"Search of partnership for ERASMUS+ KA1 an KA2-projects in the sectors 'nutrition and food supply management' and/or 'commercial'

Klara-Oppenheimer-Schule Würzburg is located in the centre of Germany, in northern Bavaria. We are a vocational school and professional academy for commerce, home economics and social occupations. About 3000 students attend classes full time or are pursuing a vocational training programme, where they spend one day a week at our school, the rest of the week they are learning on the job.

Our training comprises theoretical as well as practical elements. We work closely with local employers.

We are currently searching for cooperations for ERASMUS+ -projects (KA1 and/or KA2) with
- vocational schools or academies for commercial professions
- professional schools or academies for nutrition and food supply management or full time schools that offer graduation according to EQR 6

On the sector of nutrition and food supply management for example we could imagine cooperations in the following fields:

1. **Strategic school partnership (ERASMUS+ KA2)**

   Possible fields of cooperation:
   - food culture, table manners, nutritional trends in the partner countries
   - healthy diet
   - future-oriented organisation of operational health management
   - sustainable corporate management
   - quality assurance measures

   and / or

2. **Work placements abroad**

   Possible fields of cooperation:
   - mutual organisation of work placements according to the ERASMUS+ programme

   Possible partners for work placements:
   - conference venues, centres for the elderly, hospitals

   Tasks trainees should perform:
   - administrative tasks (middle management)
   - implementation of company projects (e.g. introduction of new detergents)
   - organisation of company parties or culinary specialty weeks in canteens
- personnel planning, procurement
- organisation of cleaning, decoration, commercial kitchen, and service

If you are interested, do not hesitate to contact us.

Sincerely yours

Renate Wallner
