We are happy to announce that the Eurodesk Survey 2019 report has been released!

The 2nd edition of the Eurodesk survey shows trends and preferences of how young people find, engage with and perceive youth information about mobility opportunities. The report focuses on understanding young people’s preferences and identifying what stakeholders in the field of learning mobility can do to better reach out to youth.

Find the survey on our website either on:

- **News section**: Release of the Eurodesk Survey 2019
- **Our Project tab**: Eurodesk Survey project

**Recommendations**

At the end of the survey, we have listed recommendations that have come out of the analysis of the survey. We encourage you to share these and promote these to relevant stakeholders in your national, regional or local context.

**Social media campaign**

We will be conducting a short campaign to highlight the outcomes of the survey. Infographics, such as the ones below, have been prepared and can be found on the Resource Centre under the folder Campaigns.
Lastly, I want to thank the network for the hard work done last year of disseminating the survey to young people. We received 3495 respondents, 3,5 times more than the edition before - so a big thank you and congratulations on the work done!

If you have any questions, don't hesitate to reach out to me.

Best regards,
Safi
