Project: Entrepreneurship: revealing and deploying entrepreneurial potential

Our team, consisting of the Institute of Working Sciences from the Ruhr-University in Bochum (Germany) and the TELiT-Institute of the University Duisburg-Essen (Germany), is searching for several project partners in European countries (for example United Kingdom, France, Spain, Greece, Croatia, Italia, Cyprus, Portugal, Slovakia, Poland, Latvia, Ireland, Slovenia, Romania and Sweden etc.).

Focus of the project:

- The project’s aim is to contribute to reduction of unemployment, especially youth unemployment. This is done by the strengthening of the ability to think and act entrepreneurially of young people between 15-25 years.
- Multipliers from Chambers, educational institutions (e.g. schools and providers of further education) and governmental organisations (e.g. employment agencies) shall be qualified in order to achieve the goal mentioned before.

What we are looking for:

- Chambers, educational institutions (e.g. schools and providers of further education), governmental organisations (e.g. employment agencies) or similar organisations, who are concerned with youth unemployment, assistance for foundations or age diversity at work.

Deadline: 28th March 2014
